Schedule for the day:
Registration opens 8:30am
Lecture: 9am 12pm
Lunch: 12 2pm*
Lecture: 2 5pm
***Northeast Delta Dental will conduct their business meeting during lunch.**

The Oral Cavity Under Acid Attack….Identifying, Understanding and Treating Caries, Erosion, and Other Acid Related Diseases. As a dentist, personal trainer and fitness nutrition specialist, Dr. Geissberger brings a unique perspective to the subjects of caries, diet and the oral environment. He will discuss various disease conditions that plague the entire dental population, and identify several at risk populations. Discussion will include the importance of oral pH, strategies for altering an unfavorable oral environment, and progressive strategies to help patients achieve oral balance and curb the disease processes.

LEARNING OBJECTIVES:

- Understand the difference between a balanced oral environment and one susceptible to disease
- Develop strategies which can be implemented to help patients achieve oral balance
- Develop a program for caries eradication that can be easily implemented
- Discuss the oral implications of poor eating habits
- Learn which materials should be used to properly restore dentitions effected by erosion, abrasion, GERD and bulimia

Quarterbacking Difficult Restorative Cases in Tumultuous Financial Times

Many practices have seen a 10-25% decrease in revenue. Now more than ever, excellent communication, dazzling case presentations and a complete understanding of patients is essential for survival. This entertaining program will teach necessary skills in patient communication, treatment plan development and delivery that will propel you and your team to new levels of productivity and patient care.

LEARNING OBJECTIVES:

- Know how to customize case presentations to maximize acceptance
- Learn to fully diagnose loss of vertical dimension, compensatory eruption, altered passive eruption, wear, gerd, bulimia and other non-caries related dental diseases
- Understand how to manage and restore these disease processes
- Incorporate the latest technology into practice to maximize outcomes

Speaker Biography Dr. Marc Geissberger attended the University of the Pacific, School of Dentistry, earning a Doctor of Dental Surgery degree in 1991, and in 1994 he earned a Masters of Arts in Educational Psychology from the University of the Pacific School of Education.
He has practiced in Marin, CA since 1991. He is an Adjunct Clinical Professor in the Dept. of Preventive and Restorative Dentistry and served as Chair of the Dept. of Integrated Reconstructive Dental Sciences at the University of the Pacific, School of Dentistry for 15 years.
