7412 Mountain Road, Stowe, VT 05672**

Location/Directions: For detailed directions go to the website  
<http://www.stowemountainlodge.com/vermont-hotel-directions.php>

**Implementing Implant Restorations**

This course will educate and excite the dental team on successful implementation of implants. New technology such as CT scans, planning software, and state of the art restorative materials allows for predictable delivery. This course offers tools to identify implant cases, gain patient case acceptance, and set a clear course for implementing implant dentistry.

After completing this course, you will be familiar with the art of restorative dental implant cases.

**Course Objectives:**

- Knowledge of planning for implant
- Learn the process for uncovering the implant
- Taking an impression of the implant area
- Using a provisional during the implant process
- Knowing the final restorative placement
- Develop highly esthetic restorations that replicate the contour of natural teeth

**The Vermont State Dental Society is an A.D.A CERP Recognized Provider - #02395013**

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The Vermont State Dental Society designates this activity for 6 continuing education credits

**ADA CERP®** | Continuing Education  
Recognition Program

David Little, DDS, received his doctorate degree in dentistry at the University of Texas Health Science Center at San Antonio Dental School and now maintains a multidisciplinary, stat-of-the-art dental practice in San Antonio, Texas. An accomplished national and international speaker, professor, and author, he also serves the dental profession as a clinical researcher focusing on implants, laser surgery, and dental materials. As a professional consultant, he also shares his expertise on emerging restorative techniques and materials with industry peers. Highly respected for his proficiency in team motivation, Dr. Little's vision, leadership, and experience are recognized worldwide.
