

To Make VSDS Your Homepage on Safari (Macintosh)

With VSDS.org up on your screen, click on the "Edit" at the top of the screen for a pull-down menu. Find "Preferences" at the bottom of the pull-down menu and click on it.

Type in <http://www.vds.org> into the area "New Windows Open With"

When you initialize the internet, VSDS.org will now appear and you can browse for newly posted information and reference dental information.
