

# Thank You!

---

---

Because of you, the Vermont State Legislature has rejected the proposed three percent tax on dental services that would have cost dentists and patients \$6 million per year.

To everyone who signed our petition (over 11,000 Vermonters), wrote letters and spoke with your legislators, thank you from our dental team and all dental team members throughout Vermont. Your efforts were critical to why legislators chose not to support the tax. Be sure to thank your legislators by using the legislative contact function on [VSDS.org](http://VSDS.org).
